

introduce child here?
intro: room w/ lots of cats
to new
testing room

you see
scientist...
go back

Testing Room!

cats in cage
puzzle
to get out

right

middle puzzle
+
bars?
ESCAPE!

left

identical
outlets

hiding hole!
an old cat will
say advice
(go to hiding hole page)

climb to top of cage

down jump onto
floor

you need food!
go find a treat

think
there's
some on
the table

maybe get
a higher vantage
point

you see a door
+ a hiding hole
no other cats.
also a mouse + treats

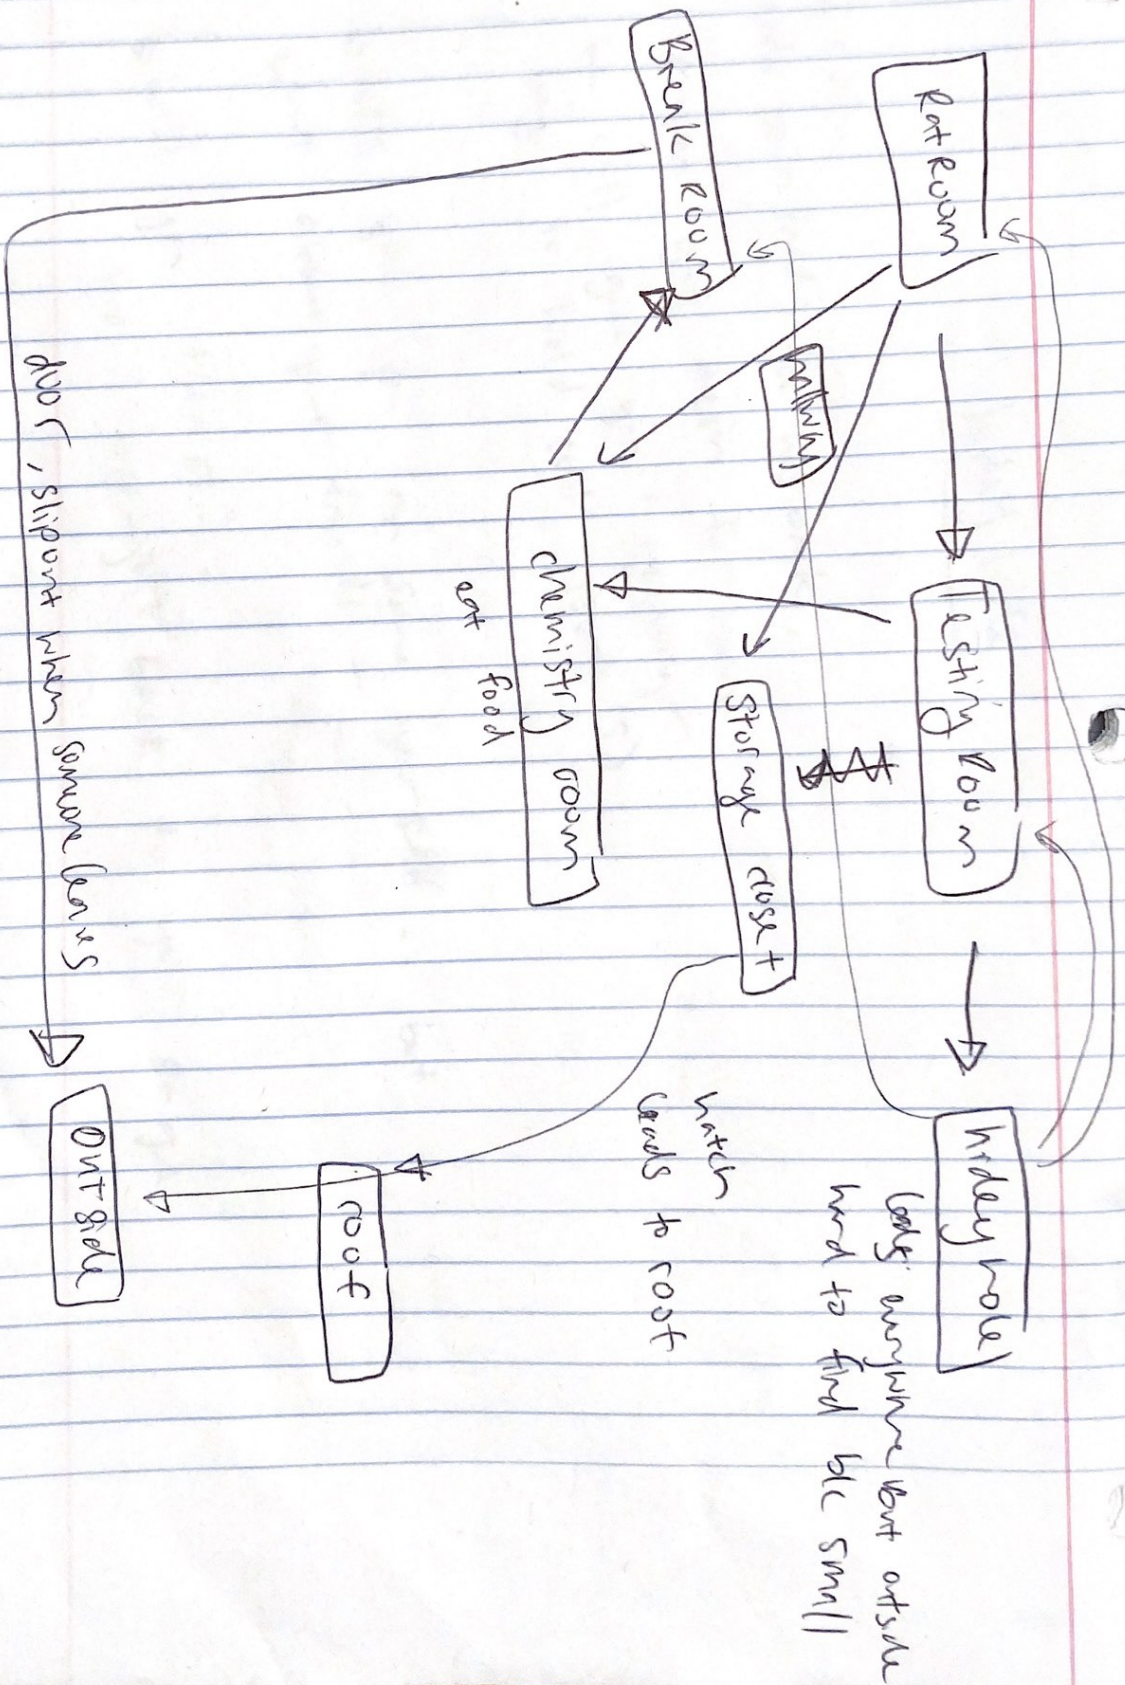

door to hallway

jump down
into mouse

it's a
solution
to a
puzzle

can't pick up items
if hungry

thru cage
into
intro

of hold
2 items
before long

hidden hole

old rat
needs pain meds for his back...

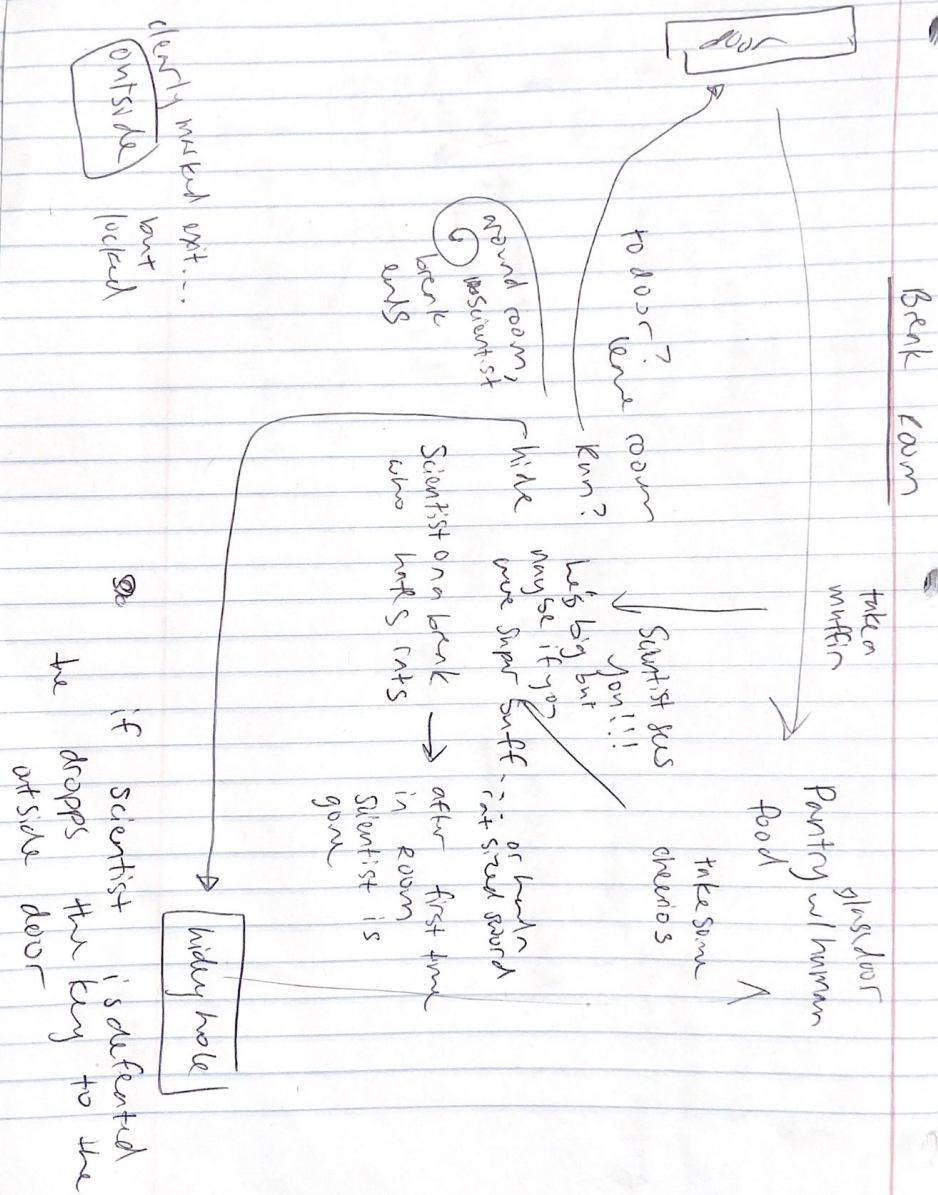

if you get them for him

he will give you a message(s)

long to hold cool items

↳ tells you you can save yourself... but
what about your friends

↳ will you escape?...
no? brought back to your cage

upon entering the room
you see another door, midway
a kid, & rats in cages

Kid room

→ go to kid but w/out murder, need to find a way to get keys from kid

go to cages to see your friends

cats tell you about transistors the kid w/ keys

Cages

→ midway

→ go to storage closet

storage closet

check out what's on the tables! -

rope

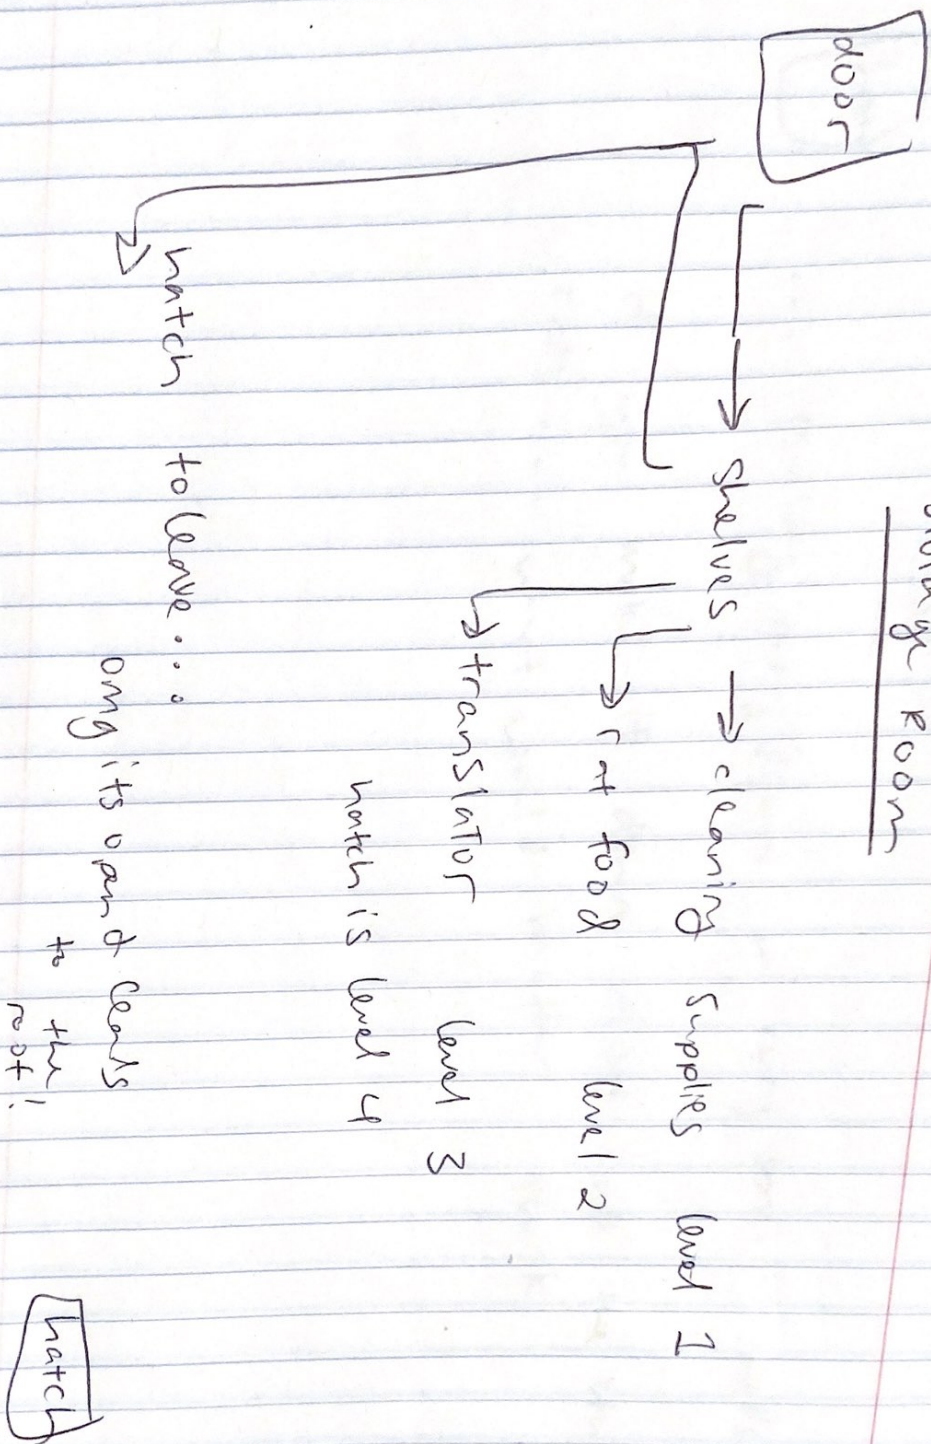

↙ cat-sized sword
option to pick up

kid playing w/ keys
but you can't understand what he is saying

some options

midway

Storage Room

hatch

Roof

... its along way down w/ very smooth walls
if you make it down w/out all the other
cats - - - what would mother think

Chemistry Room

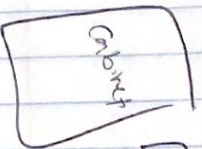

check what's on the table

there is
a locked cabinet
in the back
of the room

no pain meds...
but there is a bubbling
chemical mixture that
smells like lavender

do you want to drink it?

stick a note
w/ a needle
for the password

inside the cabinet are the
pain meds for the old fat

Chinley hole

Findings

- defeat Scientist, get key, go out door
- Same but w/ keys from kid, release all cats
- get rope, go out hatch
- Same, but w/ all the cats
- Say no to old cat & end up in cage
- jump off roof w/ out rope
- Scientist catches you

$$\frac{x^x}{x}$$

Classes

- Rat (main characters) largeable intus fna?
 - each room
 - item
 - ~~person~~ NPC
